8								×							
9									×						
10										×					

Fencer: Enter the names of the fencers.

1–10: Enter the points scored by the fencer for the row against the fencer of the column.

V: Count the number of matches won by the fencer in the row.

D: Count the number of matches drawn by the fencer in the row.

HS: Hits scored – the total number of hits scored by the fencer in that row (total along the row).

HR: Hits received – the total number of hits scored against the fencer in that row (total along the column).

Pos.: Position – the fencer with the most victories is placed first. In the event of a tie, the fencer with the most draws, then the fencer with the highest hits difference (HS – HR).
